## Plants

Plants are living things that grow on land or water. Plants can be divided into two groups: flowering plants and non-flowering plants. All plants make their own food by sunlight. Plants have roots, stems, leaves, flowers and seeds. Seeds of plants will only reproduce the same plant. Some seeds are edible. Some plants are the sources of food. Edible parts of plants are called fruits and vegetables.

**# Answer to the following questions.**

1. How many groups' plants can be divided into?

Ans: Two.

2. What is plant?

Ans: Living thing.

3. What is called edible parts of plants?

Ans: Fruits and vegetables.

4. Write one part of a plant.

Ans: Root.
